

100mm LED Fog Light

Feature

- 5600K colour temperature
- Advanced reflector technology
- Direct fit
- Sold as a kit

Benefit

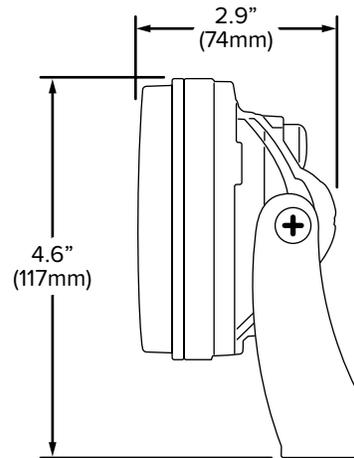

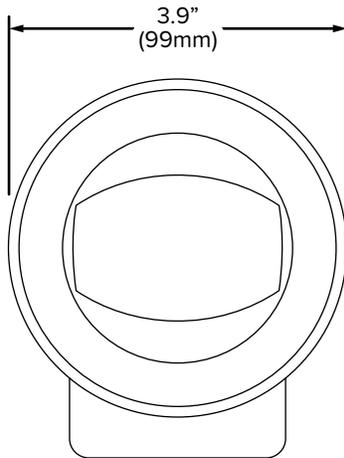

Provides a crisp and cool white light output which enhances driver visibility, improving safety. Produces a uniform beam angle for wider field of vision, illuminating road markings more clearly. Designed for most modern fog lights, easy plug and play installation saves time. Includes two lights, wire leads and mounting brackets.

Specifications

Operating Voltage:	12 - 24Vdc
Operating Current:	0.6A @ 12Vdc 0.3A @ 24Vdc
Power Consumption:	8W
Temperature Range:	-40°C to +80°C
Ingress Protection:	IP68
Weight:	0.6lbs (0.3kg)
Housing:	Die Cast Aluminum
Lens:	Polycarbonate
Connection:	Pigtail
Compliance:	SAE J583
