

LED Liftgate Flasher SAFETY LIGHT

Designed with safety and awareness in mind.

Feature

- Smart sensor technology
- Bright flashing LEDs
- One-time activation switch
- 3 LEDs
- 52 flashes / minute
- Long life battery
- Fully submersible

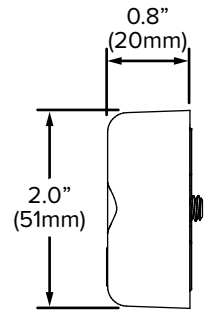

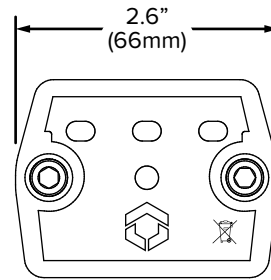

Benefit

- Automatically triggers LED illumination in non-vertical orientation.
- Raise pedestrian awareness in close proximity to vehicle.
- Simplifies the installation process as there are no wires to cut.
- Bright warning lights.
- Distinct and noticeable flash rate.
- 5 years life based on normal usage.
- Can be used in wet environments.

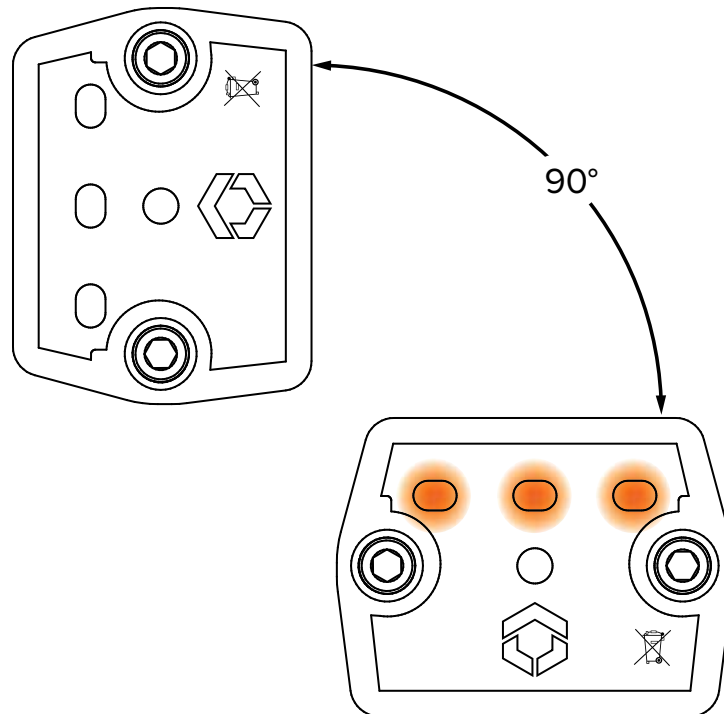

Specifications

LEDs:	3
LED Colour:	Amber
Activation:	Non-Vertical Orientation Vertical OFF
Temperature Range:	-40°C to +85°C
Ingress Protection:	IP69K
Weight:	1.9oz (55g)
Housing:	Automotive Grade Clear Polycarbonate
Battery:	Non-Replaceable 3.6Vdc Lithium-Ion
Battery Life:	5 Years (based on normal usage)
Mounting:	2 x 1/4" Screw Holes 50mm Apart for #8 Screws

Part #	Description
44110	LED Liftgate Flasher Battery Operated

Operation
